## Personal Safety Reminders and Tips

March 2, 2023

Hello Market Community,

There have been several incidents in the past weeks in which Market Security worked closely with Seattle Police to ensure the safety of our community. We want to use this as an opportunity to remind everyone of some important measures for staying safe. Market Security is here for the general safety and security needs of the Market Community, 24/7. We ask that everyone read the information below to establish a safety plan for yourself and your employees and discuss with your Market Neighbors as we continue to look out for each other.

**REMINDER:** Any incidents involving physical violence or any weapons (even bottles, rocks & sticks) need to be called into 911, FIRST!

### When To Call for Help & Who To Call

#### Call 911 FIRST, then Market Security if:

- You see someone is causing a disturbance, threatening, or acting suspiciously with a knife, gun, or other weapon, call 9-1-1 immediately!
  - If you can, have someone else call Security, or call them next and always inform whomever you call that there is a weapon involved and stay on the line, if possible.
- You see or hear someone who might be in trouble, call (9-1-1) and then Security.

#### Call Market Security (206) 682-2253

- If you notice suspicious persons, avoid them and call Security. If possible, please note:
  - Appearance
  - Location
  - Suspicious activity
- Inform Market Security of any unusual activity or suspicious persons in the area and any changes in your normal business operations.
- If you see an abandoned, suspicious package, call or notify Market Security

### General Safety Tips

- Always be aware of your surroundings.
- Avoid dark and less traveled routes in favor of well-lit and high trafficked routes.
- Please familiarize yourself and your staff with Market Security's phone number, 206-682-2253 and have it posted near your business phone and programmed into your mobile phones.
- Advise your employees to greet and acknowledge customers entering your space.
- Discourage use of mobile devices and encourage them to keep eyes open and on the store or space.
